

Solstice[®] Shingle

A highly-energy efficient and durable solar roofing solution that delivers performance and style.

Revolutionizing Solar

A Solstice Shingle roof-integrated solar system gives you every advantage of going solar without the bulky look of traditional panels.

Superior protection & performance in a sleek profile

- **Class 3 impact resistance.** Stands up to hail and other weather extremes.
- **Vasd of 150 mph and Vult of 194 mph:** Approved for installation in Florida High Velocity Hurricane Zone.
- **High efficiency.** Produces 13% more watts per square foot than comparable solar shingle solutions.
- **Year-round energy savings.** Generates power even on cloudy days and evenings.
- **Easy installation.** Quickly installed by shingle roofing crews using standard deck screws.
- **Easy design & permitting.** Customized software simplifies processes.

Award-winning efficiency & design

Awarded Best in Show and Best Energy Efficient Product by the National Association of Home Builders (NAHB) at the 2024 International Builders Show.

Industry Leading Warranty Coverage (PARTS + LABOR)

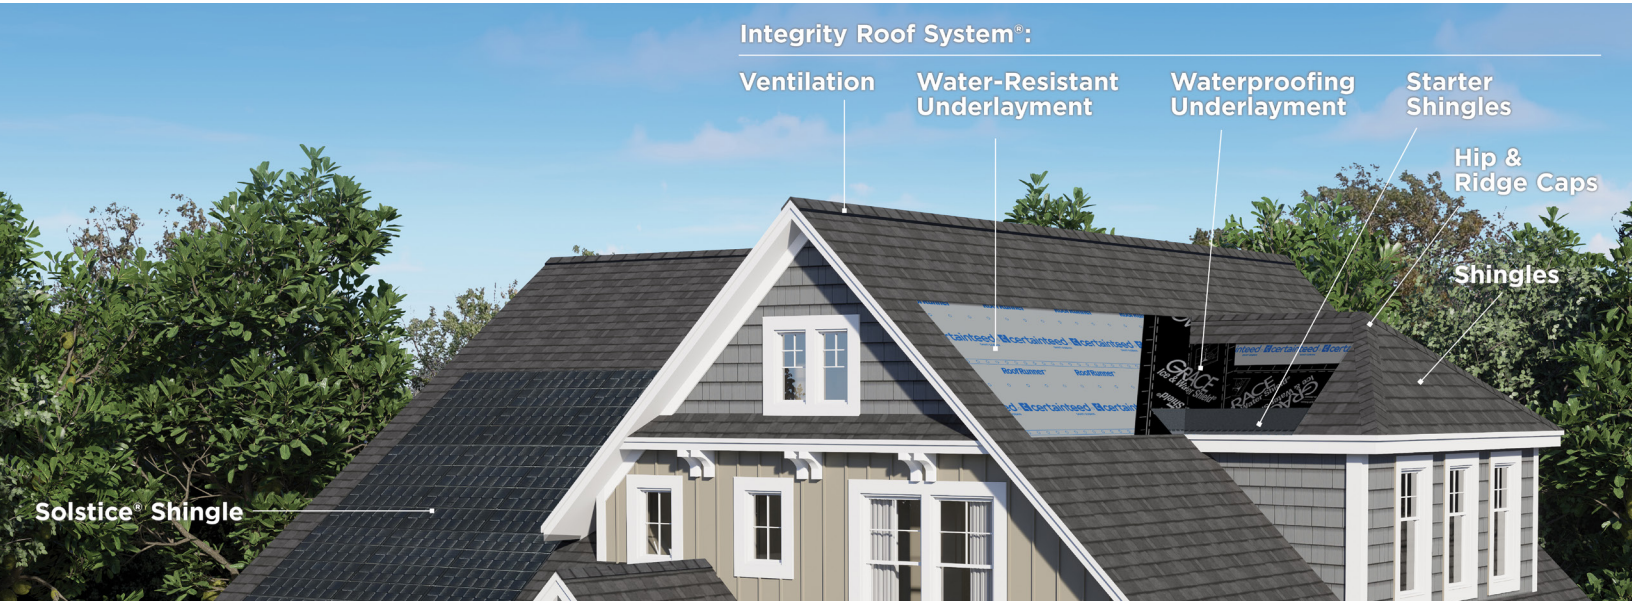

BACKED BY CERTAINTEED, A COMPANY TRUSTED BY ROOFING PROS FOR OVER 120 YEARS.

COMPONENT OF PV SYSTEM	WARRANTY YEARS
Solar shingle power output*	25
Installation workmanship**	25
Rapid shut down device	10

*Power output warranties reflect how a module performs under standard lab test conditions. Environmental factors like high temperatures, low-light conditions, and shading contribute to differences in output on the roof as compared with standard lab test conditions.

**Any defect in workmanship detected within the first two (2) years is the responsibility of the Solar Roofing Specialist.

Your Roof Should Do More

Integrity Roof System®:

Ventilation

Water-Resistant Underlayment

Waterproofing Underlayment

Starter Shingles

Hip & Ridge Caps

Shingles

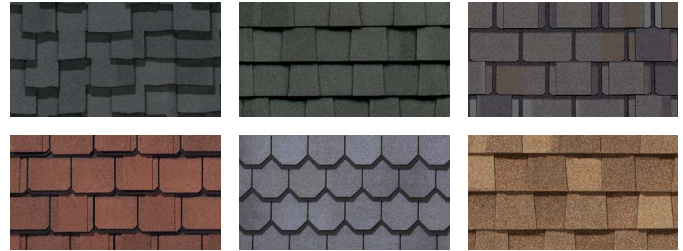

Solstice® Shingle

Beauty with integrity

Create a stunning integrated solar roof with any CertainTeed asphalt shingle. Choose elegant designs that replicate natural wood and slate in a wide variety of fade-resistant colors, including:

- Presidential® Shake IR
- Landmark® PRO
- Belmont®
- Grand Manor®
- Carriage House®
- Landmark® ClimateFlex®

Combine this with our underlayment, ventilation, and accessory solutions, to achieve a CertainTeed Class 3 Integrity Roof System®: a roof that provides optimum performance, no matter the weather.

See the savings right away

See noticeable savings on your utility bills in the first month. Solstice Shingle offers homeowners a practical solution and enhanced curb appeal, with a cost comparable to installing a new roof and traditional solar panels.

Your choice matters

49 183
Forest Acres

The acres of forest that have to be planted for an equivalent reduction of CO2 emissions.*

519
Barrels of oil

The number of barrels burned to create the same amount of energy as your solar system.*

5,718
Trees Planted

The number of trees that have to be planted for an equivalent reduction of CO2 emissions.*

**Environmental contribution from a typical 10kW Solstice shingle system*
